SATURDAY EVENING. JULY 30, 1904.

HICKS FOR AUGUST. Rev. Irl R. Hicks makes these predic-

ons for August:
First storm period from the 1st to the tions for August: 5th, the disturbing causes being, the Vulcan regular, the Mercury equinox, the Mars perturbation and moon at last quarter. The Mars and Mercury periods quarter. The Mars and Mercury periods in all probability will cause the unsettled stormy weather to continue into August, but the first days will bring decided in-

crease of storm conditions.

Heavy rains will visit sections covered by previous rains at this period. Change to much cooler will follow in the wake of these disturbances.

Second storm period, reactionary, is central on the 8th and 9th. Falling barometer, increase in temperature, cloudiness and return of more or less storminess will be natural results on and touching the 8th and 9th, Under existing conditions, whatever perturbations arise at this reactionary period are very apt to be prolonged into the storm period

next following.

Third storm period, regular. The influence of this period will be felt from fluence of this period the 16th. One of the 11th quite up to the 16th. One of the heated terms of the summer is one of the things to be expected about this period. It will come in with very high temperature, consequent upon moon's conjunction with earth and sun on the onjunction with earth and sim on the 11th. The warmth will increase and the barometer will fall as we advance into the period and by the 14th may be expected wide areas of violent electrical storms from west to east. These storms will consume three or four days. They will be attended with heavy hail in sections. western and northwestern Change to rising barometer and cooler will naturally come in behind these storms. About the 11th to 14th may

high temperatures, low barometer and saltry, humid atmosphere will be natural at this period, and under such conditions intense electrical storms are very PARK AGNEW, apt to appear. General thunder storms C. C. LEABEATER, with phenomenal lightning, heavy gales C. with phenomenal lightning, heavy gales and possible tornadoes, are among the results to be watched for over much of the interior country. A marked rise of the barometer and change to westerly winds and cooler will push the rear of

these disturbances.

Fifth storm period extends from the 25th to the 28th. Very general and severe storms will visit the interior parts

and when applied to such injuries, causes them to heal very quickly. It a'so allays the pain and soreness. Keep a bottle of Pain Balm in your home and bottle of Pain Balus in your home and it will save you time and money, not to mention the inconvenience and suffering which such injuries entail. Triumphs of Modern Surgery.

Wonderful things are done for the human body by surgery. Organs are taken out and scraped and pollished and put back, or they may be removed entirely; bones are spliced; pipes take the place of diseased sections of veins; antiseptic dressings are applied to wounds, bruises, burns and like injuries before inflammation sets in, which causes them to heal without maturation and in one-third the time required by the old treatment. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It a'so the late of the la
